

**Solution:**

The table is as follows:

Company	Per Share Data			Ratios & Percentages		
	Price	Earnings	Dividend	P-E	Dividend Yield	Dividend Payout
Royal Dutch Shell	\$36.45	\$4.98	\$1.68	5.31	4.61%	33.73%
ExxonMobil	\$84.76	\$8.43	\$1.86	10.05	2.20%	22.06%
Chevron	\$106.42	\$13.54	\$24.26	7.86	179.17%	22.80%

(1)

(a) Chevron

(b) Royal Dutch Shell

(c) Royal Dutch Shell

(2)

(a) The most attractive investment seems to be Royal Dutch Shell, because they have a lower P-E and a moderate yield of dividend.

(b) The least attractive investment seems to be Chevron, because it has a very dividend yield, which indicates that the company is overspending on its shareholders, and can consequently lead to a problem for future.
